# PRICE LEVEL LIFTED UP

Result of Urgent Rush by Over-Extended Shorts.

CLOSING NEAR THE TOP

Persistent Downward Trend of Steel Bonds is Dis urbing to Sentiment on Stock Exchange - The Bond Market Sympathetic.

(By Associated Press.)

NEW YORK, Oct. 2.—The stock market, his morning continued to show depression and discouragement. The piolession and discouragement. The piolessional traders sought to take advantage of this movement to force I quidation by offering prices down. Their operations of this movement to force I quidation by offering prices down. Their operations of this character became so over-extended as to result in a rather urgent borrowing demand for stocks. Taking warning from this condition, the shorts covered their contracts, causing the late recovery in the market. This was quite comprehensive and lifted the average level of prices well above last pight. The closing was shout steady, and near the top. The predominating influence on the market, was still the testimony concerning the promotion, underwriting and flotation the United States Shipbuilding the proceedings. The disclosures brought out by these proceedings have caused a state of first tion and distrust amongst shareholders difficult to describe and the character of the discussion of the episode in Wall Street is of a kind regarding trusts and trust promoting not often pared in the financial district itself. United States Steel, common, and armiced States Steel bonds is especially disturbing to sentiment since the reduction. The long decline in the common stock, The persistent of the common stock, The order of the dividend on the common stock, and the common stock was sought to be explained as due to the unwieldy bulk of that is usen a factor, feeling is more sensitive over the continued decline in the preferred stock and bonds.

Reports of frosts in the corn belt, probably had some influence on the early decline, but did not interfere with the recovery, indicating the passing of uncashness over the present corn crop. The shipments of currency to the interior on balance have been somewhat larger than last week, the outward movement is still well below the normal for this period of the year, and seems to have been more than offset by redemption

(Special to The Times-Dispatch.)

NEW YORK. Oct. 9.—The opening of the stock market was depressed in sympathy with the decline in London and the weakness of the previous day. There was liquidating orders in various places, mostly coming from the West and Bouth. Mose of the commission houses reported scattering selling orders, and the traders were heartled to aman.

United States Steet continued to feel the uncertainty created by the decreased earnings, and probably also suffered from the effect of United States Shipbuilding disclosures upon the minds of small holders. New low records were made in the first few minutes. There seemed to be some support, but hot of a particularly aggressive character.

the Brst few mioutes. There seemed to be some support, but not of a particularly aggressive characteristics of the property of the particularly aggressive than the property of the property o

THE FIRST HOUR'S TRADING:

The market did not act as badly in the first hour as might have been expected from the opening weakness. Some fairly heavy foreign reilling was well taken, and the traders, how are not looking for bull argument just now, of rankly that they thought have now from the control of t stantial block of offerings.

MOVEMENT OF CURRENCY: The principal movements of currency this week indicate that the banks gained thereby \$237,100.

WABASH ISSUES WEAK:

The weakness in the Wabash issues, when the rest of the market was inclined to raily, was not very satisfactorily explained. There is some reason to think that the showing in the report has made a number of traders who were long of the preferred transfer their interest to the dehenture Bs. The possibility of the latter issue getting some interest next spring is still good, while it is doubtful if the stock would buil on any consolidation story.

#### Business is of Fair Volume, but Not So Active as a Year Ago. (By Associated Press.)

TRADE CONDITIONS

STILL IRREGULAR

NEW YORK, Oct. 9—Bradstreet's will to-morrow say of the state of trade:
Trade conditions are still irregular. Business is of fair volume, but not so active as a year ago, partly because of the backward season, heavy rains in terfering with ctop movement and collections; vexatous labor troubles, past and present, discouraging building operations and the spread of the conservative feeling among buyers based on stock market liquidation and the feeling that the high prices of many products will tend, if it has not already done so, to automatically check trade.

First in importance should be reckoned the decidedly better tone of the advices from the corn crop, which has developed a larger yield and a better quality than was earlier deemed possible. Special inquiry by Bradstreet's points to a yeld of at least 2,250,000,000 bushels of a grade generally far superior to that of a year ago. Lower prices for this and other cereals and for cotton whose yield will be smaller than seemed possible a month ago, will likely help out export trade in those products and improve the foreign exchange outlook.

Collections, too, though backward, are improving, as the grain and cotton movements expand.

The best trade advices come from the Southwest, notably at Kansas City and St. Louig, from the Western sections, such as Nebraska and Iowa, where trade !a still unqualifiedly good, despite the slowness of new wheat and other crops to move and from portlons of the South, such as the Mississippi Valley, where present prices for cotton offer a good return for fair yields, and Philadelphia business with dry goos jobbers is backward and supplementary demand for cotton, woolen and knit good of Western Iobacco in warehouse at Liverpool without offers.

HIGH CLASS AT I BACTIONS.

### HIGH CLASS ATTRACTIONS.

The Acme of Amusement Enterprise Will be Here.

The leading attraction at every first-class exposition, carnival or street fair throughout the country has been the Gaskil-Mundy-Levitt Carnival Company's high-class attractions, and everywhere it has been exhibited it has been the concensus of public opinion that for high-class general excellence and marked superiority they have far excelled anything else of the kind ever seen in America. They are educational and refined, entertaining and clean, amusing and harmiess, cloviating and edifying, honorably conducted and honestly advertised. The fronts of the shows are true works of art, resplendent with rich carving, gliding, painting and decoration, studded with hundreds of vari-colored incandescent lights, which flash and glitter like a myriad of jewels, while crowning all are the great white dazzling, ares, which shed light as bright as day over the entire midway. Each show is the very best of its kind in existence, and there is an air of splender about them that is so sadly lacking with other aggregations. There is nothing of the cheap and tawdry, flashy and trashy about them. Instead, all is the richest, most refined elegance, where the very best of people are wont to go, and where the old and young, and the rich and poor alike seek and find pure, innocent recreation and amusement. There are a score of high-class shows and seven great free acts, including the great Loop the Loop, all of which we be seen next week at the fall carnival at the Base-Ball Park.
